Directions:

1 **SHAKE WELL before each use!**

2 Adjust nozzle for desired spray pattern.

3 Apply liberally to plants and their perimeter during a dry period.

Repeat process 1 week later and then approximately once per month thereafter. Areas where feeding pressure from deer and rabbits is intense, spray **Liquid Fence® Deer & Rabbit Repellent Ready-To-Use$_2$** once a week for 3 weeks and then approximately once per month thereafter. This will "train" the animals to avoid your yard!

Please note: when using this product you may notice an odor, however once it dries, the odor will not be noticeable to humans, but still very noticeable to animals.

How it works:

Homeowners, gardeners, professional landscapers and commercial growers have discovered **Liquid Fence Deer & Rabbit Repellent Ready-To-Use$_2$** stops deer and rabbit damage – naturally!

Unlike other deer and rabbit repellents that require the animals to browse to be effective, **Liquid Fence Deer & Rabbit Repellent Ready-To-Use$_2$** works on scent, so deer and rabbits don't even have to take a bite to be repelled. Because the animals' natural aversion to this scent will never diminish, this product DOES NOT have to be rotated with other repellent brands.
